

RACENIGHT AT SHOREFIELD - 22 January 2015
Report by Alan Russett

Older members recalled that this was the eighteenth consecutive occasion on which this popular event had been held. A full house of members and their guests enjoyed the traditional racing with model horses on their own green track in the middle of the floor. This year's innovation was that the roll of dice was produced on an i-Pad rather than the usual real cubes. Betting was keen and there were generous prizes for the winning horses, including that for the Ladies Race.
